Work Experience

Genzi Technologies Pvt. Ltd | AI/ML Design

May 2025 – Jul 2025

- Designed user flows, responsive layouts, and chat interfaces for an AI-powered real estate chatbot.
- Conducted user testing to ensure clarity, accessibility, and seamless conversational experience.

NASSCOM (SmartBrains) | UI/UX Development Internship

Sep 2024 – Dec 2024

- Built a real-time weather forecast website using HTML, CSS, JavaScript.
- Applied UI/UX best practices to improve usability and user engagement.

Pentagon Space | Web Development Intern

Oct 2022 – Nov 2022

- Developed responsive webpages using HTML, CSS, JavaScript.
- Strengthened foundation in frontend technologies & UI layout structuring.

CICADA Tech Fest – Atria Institute of Technology | Core Team Lead & SPOC

2022 – 2024

- Led a team of 80+ volunteers across multiple departments for the annual tech fest.
- Oversaw planning, sponsorships, design, and execution, enhancing leadership & event management skills.

Project

Event Management System

- Developed an Event Management System using MySQL with a focus on CRUD operation.
- Key functions include user authentication, event booking, and event management by the admin.

AI-Powered Real Estate Assistant – Prop Panda

- Prop Panda is a real-world AI real estate assistant, designed by me with a React + TypeScript + Tailwind CSS frontend and a Supabase backend, and it's fully hosted online.

Hotel Management System - Full-Stack Project (In Development)

- Developed a real-world hotel management system for booking, check-in/out, billing, and payment tracking.
- Built with React, TypeScript, Tailwind, Supabase, adding features like guest management, discounts, and billing workflow.
